The Internet-based Energy Information System from Wisconsin Public Service was designed for our customers with Interruptible Electric Service or Gas Transportation Service - or those participating in one of our market-based electric programs. Using this system, you can access electric and natural gas information that’s critical to managing your energy supply and your operations. The online Energy Information System is located at:

To set up an Online Profile and use the Energy Information System, please mail or fax this completed form to your Public Service Account Representative. Allow 3-5 business days for your representative to provide you with a username and password.

Please note that any username and password combination that remains inactive for six months will be deleted.
