A customer taking service under this rider will be responsible for all charges and rates specified in the customer's otherwise applicable rate schedule with the exception of the following modification: The renewable energy supplied under this rider generated by the designated renewable resource for the customer will replace an equal amount of energy for which the customer would otherwise be billed the otherwise applicable rate schedule electricity service charges. This Renewable Resource Rate is further defined below.

All energy purchased under this rider is exempt from fuel cost surcharges and credits.

PAYMENT

Payment is due no later than the due date shown on the bill. Any Company billing charges unpaid after the due date will be subject to a late payment charge as described in the Company's electric service rules under Late Payment Charge.

SPECIAL TERMS AND PROVISIONS

- 1. A customer must execute a RER-1 service agreement which provides for dedication of a renewable resource with power owned or procured by the Company and dedicated to a specific customer. The customer will be responsible for all the costs associated with such agreement up to a specified energy amount not to exceed the customer's total energy consumption. The RER-1 service agreement must demonstrate benefits to the customer, the Company, and nonparticipating customers. The RER-1 service agreement must be filed and approved by the PSCW and must include the following:
 - a. Dedicated Renewable Energy Facility Details.
 - (1) Source (project description including equipment type, costs, etc.).
 - (2) Size in kW and projected kWh energy produced.
 - (3) Coincidence with customer's energy usage.
 - (4) Project timeline.
 - b. Term of the agreement.

Continued from Sheet No. E6.78

SPECIAL TERMS AND PROVISIONS (continued)

- c. Renewable Resource Rate, which applies to the billings of the participating customer and will reflect all of the costs associated with a specific Dedicated Renewable Energy Facility including any up- front contributions or administrative charges.
- d. Provisions to address early termination in the event either the customer or Company cannot fulfill its obligations under the agreement.
- e. Information about customer credit worthiness.
- f. Excess Energy Rate, which applies to the billings of the participating customer when total generation is greater than total consumption. The Excess Energy Rate will reflect the applicable parallel generation rates in place at the time the service agreement is executed.
- 2. A new or existing customer belonging to the eligible rate classes with multiple accounts may aggregate any—up to all—of its eligible accounts under a single contract application with the Company.
- 3. New or existing customers belonging to the eligible rate classes will not be allowed to aggregate with other customers under a single contract application.
- 4. Any customer choosing to be served on this rate schedule thereby waives all rights to any billing adjustments arising from a claim that the bill for the customer's service would be cheaper on any alternative rate schedule for any period of time, including any rights under Wis. Admin. Code § PSC 113.0406(4), Reg. January 2004, No. 577.
- 5. Due to the fact this service is optional and may increase utility bills, the Company may limit customer participation in the program based on bill payment and collection histories.
- 6. Within a reasonable time (30 days) after receiving a request from a customer the Company will meet with the customer to begin discussions to determine if mutually agreeable terms can be reached with respect to a designated renewable resource in accordance with Wis. Stat. § 196.192.
- 7. Service may be limited at the sole discretion of the Company.
