ENVIRONMENTAL INFORMATION FOR SITE

Does your site have any wetlands, waterways or groundwaters; threatened or endangered species; cultural or historical resources; or hazardous spills or materials? Yes No

If yes, please explain: _____

Note: If any of the above are discovered during construction, crew activity will stop and we will notify you of subsequent action. This may result in construction delays and costs.

CUSTOMER SERVICE READY INFORMATION

Date property will be staked: _____ Complete Not applicable
Date building will be staked: _____ Complete Not applicable
Date site will be excavated: _____ Complete Not applicable
Date temporary electric will be ready for service: _____ Complete Not applicable

The ready for service date is determined when all the following requirements are complete by customer:

- A completed site sketch and liability waiver has been received by WPS*
- Foundation is backfilled at meter locations and site is within 6" of final grade*
- Installation route is clear of brush, trees, lumber, dumpsters, equipment and any other obstructions
- Electric meter base is permanently installed
- Easements are signed and received by WPS (when required)
- Construction charges over \$20 are paid in full and received by WPS

* Not required for overhead electric installations

Estimated ready for service date: _____

At construction time, all existing or proposed private underground facilities must be marked or exposed before service can be installed.

LAWN/PAVEMENT REPAIR

After installation is complete, we will backfill with existing soil. For further explanation on surface repair, please visit

https://accel.wisconsinpublicservice.com/home/pdf/lawn_repair.pdf

AUTHORIZATION

I certify that I own or am the authorized representative of the person(s) who owns the property indicated in this application. I certify the information provided is accurate and I will promptly inform WPS of any plan revisions. If installation requirements differ from what is submitted on this application, I understand these changes may result in an increased cost to me. I also understand a daily facilities charge will be included in my monthly bill and begins the day the natural gas and/or electric meter is installed, whether or not natural gas and/or electricity is being used. In addition, I authorize WPS to speak to contractors listed on this application regarding the specifics of this project.

Electric and natural gas construction property site sketch and liability waiver

Customer name: _____ Contact number: _____

Service address: _____ City, State: _____

Location of customer-owned facilities – Customer is required to sketch all of the following information in the property site sketch area below – see page 2 for an **example** site sketch.

1. **Desired meter location - electric and/or natural gas.** Indicate with “E” and “G” with footages from nearest corner of building.*
**Natural gas meter location needs to be a minimum of 3’ from the electric meter, any electrical wiring and components, operable windows, intakes and exhaust vents. Refer to our natural gas and electric service manual for clearance information.*
2. **Water** – Show current and proposed municipal water lines or private well. Include connecting pipes to the building.
3. **Sewer** – Show current and proposed municipal sewer lines or private septic system. Include connecting pipes to the building.
4. **Propane (LP)** – Show current and proposed tanks and connecting fuel lines.
5. **Other above-ground and underground facilities** – Show current and proposed facilities including:

<input type="checkbox"/> Private underground wiring	<input type="checkbox"/> Sprinkler systems	<input type="checkbox"/> Drain tile/down spouts/sump pump lines
<input type="checkbox"/> Private cable/satellite systems	<input type="checkbox"/> Air conditioning units	<input type="checkbox"/> Geothermal heat pumps and lines
<input type="checkbox"/> Invisible fences	<input type="checkbox"/> Fresh air intakes	<input type="checkbox"/> External wood furnace and lines
<input type="checkbox"/> Private outdoor lighting	<input type="checkbox"/> Retaining walls	<input type="checkbox"/> Decks, patios, swimming pools, outbuildings

At construction time, all existing or proposed private underground facilities must be marked or exposed before service can be installed.

PROPERTY SITE SKETCH

Check here if no existing or future private facilities on the property/site.

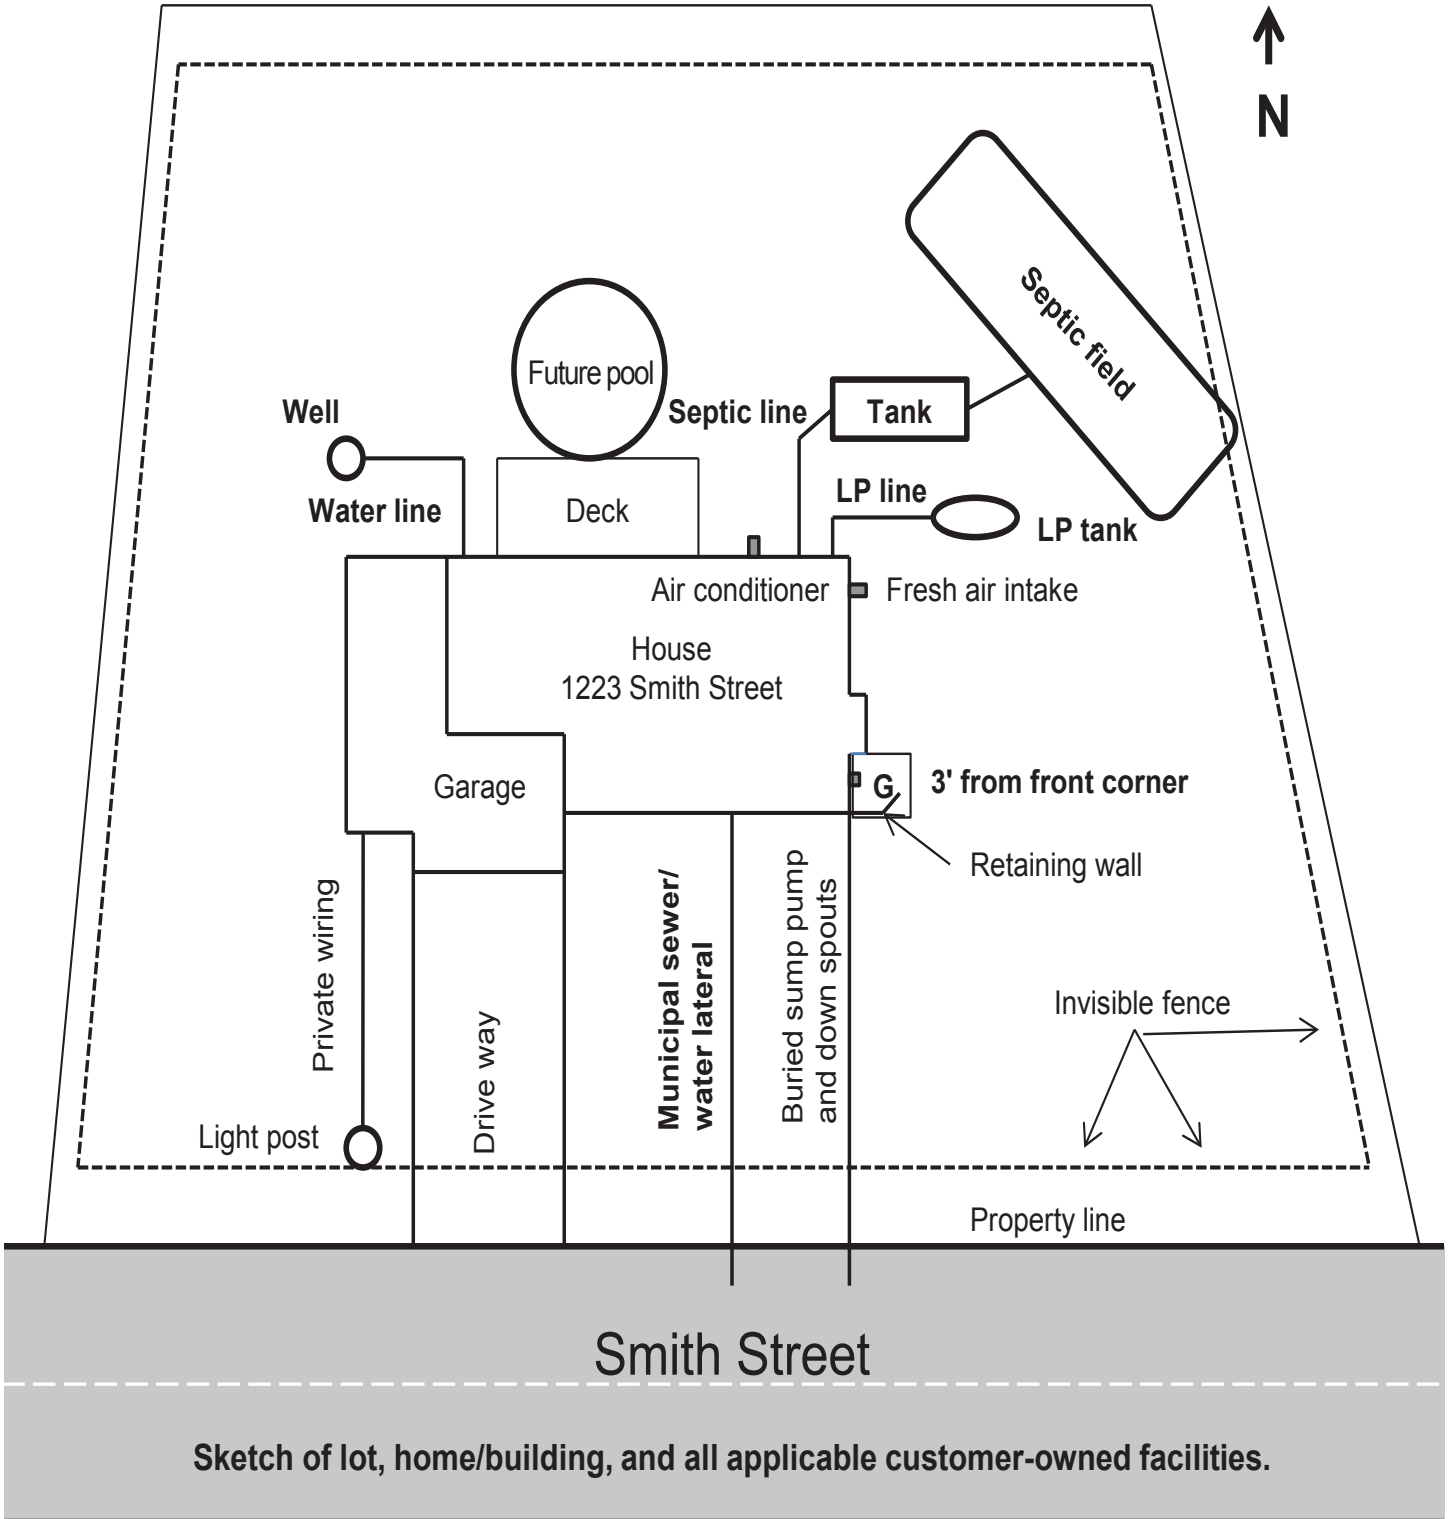

Construction authorization/underground damage liability waiver:

I certify that I own or am the authorized representative of the owner of the property of the service address indicated on this property site sketch, and that I have read and understood the above statement regarding markings and/or exposing all private underground facilities. I furthermore agree to hold Wisconsin Public Service and/or its agents harmless for any damage to private underground facilities that occurs during the installation of natural gas and electric service as a result of failure on my part to ensure that the private underground facilities on this property have been adequately marked and/or exposed.
